Lawrence, Esquire, }<br>of the Board of Administration for the affairs of the Punjab. | Appointment of Board of Administration for the affairs of the Punjab. | The Secretary to the Government of India in the Foreign Department with the Governor-General communicates to the President and Members of the Board of Administration for the affairs of the Punjab the nature of the functions, powers and responsibilities which the Right Hon'ble the Governor-General proposes to vest in them, and adds general remarks on the principles and practices which are to be observed in conducting the Government of the Punjab. (O.) | Progs. from 5th to 7th April 1849—Nos. 1-2. |
| | No. 1, dated 5th April 1849 ...<br>From—The Members of the Board of Administration for the affairs of the Punjab.<br>To—H. M. Elliot, Esquire, Secretary to the Government of India, Foreign Department, with the Governor-General. | | With reference to paragraphs 24 and 25 of the above, the Secretary to the Board of Administration recommends that Major H. P. Burn, of the 1st Native Infantry, and Mr. Geo. Christian, S. O., of the Trans-Sutlej States, may be appointed Secretaries to the Board; the former in the Military and Miscellaneous and the latter in the Revenue and Judicial Departments. Suggests that Major Edwardes, C. B., and Mr. Bowring be allowed to act as Secretaries until the above officers can join at Lahore. (D.)<br><br>(*Vide* Serial No. 14 *infra*.) | |
| 2 | No. 11, dated 2nd April 1849 ...<br>From—Lieutenant-Colonel A. S. Waugh, Surveyor-General of India.<br>To—Lieutenant-Colonel Sir H. M. Lawrence, K. C. B., Resident, Lahore. | Extension of survey operations to Jammu territory. | Lieutenant-Colonel A. S. Waugh, Surveyor-General of India, states that the triangulation has been successfully prosecuted to the Ravi by the party of the North-West Himalaya Series of the Great Trigonometrical Survey. Enquires whether it would be deemed advisable to carry the triangulation into the Jammu Territory this season. (O.) | Nos. 3-4. |

| | No. 859, dated 24th September 1849<br>From—The Secretary to the Board of Administration, Punjab.<br>To—The Commissioner and Superintendent, Cis-Sutlej States. | | The Secretary to the Board of Administration replies that it is unnecessary to refer the correspondence to Government. The Settlement Officer in making his census of the population of the large towns need merely record occupancy. He should not even enquire into the proprietary or tenant right of houses, which are questions beyond his province. A house should be translated "Chula" or hearth or fire-place, and there should be two heads for houses—first "Havelee" or "Hatah," which should embrace a number of families living within one enclosure and second "Chula" or "Khanah," which should represent one family only. Major Clarke had recourse to a plan for making Nihal Singh confess the fact of his rebellion, *i.e.*, a fine of Rs. 5,000 was paid by him as a penalty, while he received an order for the restoration of his property, Major Clarke agreeing to destroy the testimony regarding his confession, should his orders for release be reversed. Suggests that the City Kotwal should receive a salary of Rs. 100 and the Thanadar Rs. 40, the Board having fixed the salary of the former at Rs. 80 and of the latter at Rs. 30. States that the area of the valley of Pesháwar is 1,800 square miles, exclusive of Kohát, and that the customs stations are not included in the amount of establishment, only two having been formed. Explains what the watch towers are to which he alludes in his statements, and adds that a district dâk has not yet been formed. | Nos. 59-67. |

| | No. 981, dated 13th October 1849...<br>From—The Secretary to the Board of Administration, Punjab.<br>To—The Secretary to the Government of India. | | The Secretary to the Board of Administration forwards copies of documents regarding the establishments proposed for the Civil Administration of the district of Pesháwar to the Secretary to the Government of India. Notes the amount of the land revenue of the district and the percentage proposed for establishment. States that the number of Extra Assistants has not been decided upon yet, but it is supposed that 3 will be required for Pesháwar, and the cost of the extraordinary Police establishments will be less than 2 per cent. on the total revenue. The Board are of opinion that guards are required for the city gates of Pesháwar, and garrisons for the numerous forts in the district, and on the road from Pesháwar to the Khyber Pass a strong patrol is necessary. The total cost of all these establishments is Rs. 1,22,436, or less than 10 per cent. on the total | |

| 328 | No. 1045, dated 31st October 1849<br>From—The Commissioner and Superintendent, Cis-Sutlej States.<br>To—The Secretary to the Board of Administration, Punjab. | Rule of succession to estates. | The Commissioner and Superintendent, Cis-Sutlej States, submits a copy of a letter from Government, dated in 1847, directing an investigation into the rights of dependent co-partners of the Patiála State, and laying down a rule of succession to such estates. Considers that the rights of all parties will be secured if the status of 1808-09 is adhered to. Suggests that it would be equitable to allow the succession of collateral heirs, provided they are lineally descended from the holders of the estate in 1808-09. | Progs. for the week ending 17th November 1849—Nos. 92-4. |

| | No. 1260—321, dated 17th November 1849.<br>From—The Secretary to the Board of Administration, Punjab.<br>To—The Secretary to the Government of India. | | The Secretary to the Board of Administration forwards to the Secretary to the Government of India a schedule of establishments for the Multán Division carefully modified by the Board, and aggregating Rs. 15,556 per month, or between 2,000 and 3,000 rupees less than those proposed by the Commissioner. Details the causes through which a difference of percentage is apparent in the relative area and establishments of the various districts. The Board consider that under careful management and with energetic District Officers there will be no occasion for the additional establishments required by the Commissioner. (D.) | |
| | No. 1261, dated 17th November 1849<br>From—The Secretary to the Board of Administration, Punjab.<br>To—The Commissioner and Superintendent, Multán Division. | | In reply to the Commissioner's letter, the Secretary to the Board of Administration transmits a copy of the amended schedule, submitted to Government, which the Board are of opinion will be found ample for the Division. By this schedule it will be seen that in some instances the Commissioner's suggestions have been acceded to and in others the additions in salaries and establishments pointed out as requisite by him have not been considered so by the Board. The system of uniting the Thana with the Tahsil establishments will, on a fair trial, be found to work well. Instructions will be hereafter conveyed relative to the transfer of certain villages from the Kasúr to the Pákpattan District and regarding the entertainment of district Sowars. (D.) | |

| | No. 873, dated 15th May 1850 ... From—The Secretary to the Board of Administration, Punjab, To—The Commissioner and Superintendent, Multán Division. | | In reply, the Secretary to the Board of Administration states that the Sayads of Rajoora were paid from the Lahore treasury in February 1850 the sum of Rs. 10,608 in anticipation of the sanction of Government conveyed in Sir H. Elliot's letter of the 27th March 1850. That amount was much less than what they claimed and not more, in the Board's opinion, than they deserved, and the Board do not consider that it would be expedient to demand a refund from them. There is no doubt, however, that there was an error made in the calculation of the amount of remission to which the Sayads were entitled. (O.) | |

Conduct so strange as the Maharaja's will appear to be in the eyes of the natives of this country, will naturally be attributed to the exercise of undue influence over his mind on the part of those to whom his education is entrusted. The imputation is so natural and indeed unavoidable that no disavowal could deprive it of credibility. Wherefore it seems to the Board most desirable that, while no hindrance is offered to the free growth of His Highness' religious convictions, nothing should be done to encourage their tendency to the Christian faith. So long indeed as His Highness is under age and under the direct charge and influence of a British officer the Board consider that he should not be christened or otherwise regarded as a Christian. Henry Tuson, Chaplain at Lahore, and Secretary to the Lahore Church Committee, forwarding the resolutions agreed to by the Committee at three meetings held by them for the purpose of considering the question of erecting a church for the use of the European troops and the Christian community generally at Lahore. States that the Committee resolved that a church with sittings for 1,200 persons shall be built at Mían Mír according to a design prepared by Lieutenant-Colonel Goodwyn, of the Engineers, and that the Government of India be asked for a grant of Rs. 50,000 in aid of the work, the estimated cost of building the church being Rs. 70,000 : the Committee calculate on receiving Rs. 20,000 from private sources. The Board earnestly hope that the Most Noble the Governor-General will see cause to view the application favourably, for without the liberal support of Government the project cannot be completed. Forwards the plan of the building with a copy of Colonel Napier's letter regarding the cost. (D.) | |

The Board therefore request a statement showing the proportion of men brought up from Hindustan, in contradistinction to natives of the Punjab and the country Trans-Sutlej, among the *amlah* of the Sadr stations, and they also beg that in future where Punjabis can be found well qualified a preference may be given to their claims. | 736 | No. 56, dated 11th February 1851...<br>From—The Commissioner and Superintendent of the Cis-Sutlej States,<br>To—The Secretary to the Board of Administration, Punjab. | Property confiscated at Kaithal. | The Commissioner and Superintendent of the Cis-Sutlej States forwards to the Secretary to the Chief Commissioner, Punjab, a copy of a letter from Colonel Richmond, Agent to the Governor-General, dated 26th August 1843, submitting lists of the property which came into the possession of the British Government either on the lapse of the Kaithal Estate or when Sardar Tek Singh was captured, and of an account shewing how this property was for the most part disposed of. Observes that certain property belonging to the mother of Bhai Oodey Singh, the Kaithal Chief, was left in deposit at Ambala, and that it was the intention of Government to restore this property to her, as appears from Government letters dated in the year 1843, but that intention has not been fulfilled; that she died in October 1845, and that the only member of the Kaithal family now living (Mehtab Kunwar, widow of the late Chief) can have no valid claim to these effects, which were the personal property of the Mai, and were, on that account only, ordered to be restored to her, owing to which, the Commissioner presumes, that this property must be regarded as that of an intestate, and, in the absence of any established title, that Government is at liberty to appropriate it. Requests the orders of the Board as to its disposal. | Nos. 28-35. |

Lieutenant Briggs proposes constructing a slide, as shewn in sketch accompanying,—supported on uprights at every twenty feet,—the slide to have an inclination of 150, which will enable the logs to descend the 5,000 feet between the forest and the river and to go a length of 4 miles. The Superintendent, Hill States, has little doubt that the plan proposed would, under the skill and energy of Lieutenant Briggs, be perfectly practicable ; states that a similar plan with a few modifications has, he believes, been successfully tried in Switzerland, and that there is no reason why it should not prove equally successful in India; and recommends that the proposal be sanctioned as an experimental | Progs. for the week ending 1st March 1851—<br>Nos. 5-9. |

States that there can be little doubt that the flooding and subsiding of the water in the Nullah has a very injurious effect on the healthiness of the city of Lahore and of Anárkali, and that a cause of much sickness would be removed if it were to be entirely closed, the only objection to which appears to be the loss of the stream to the inhabitants for bathing purposes during the hot months. Shews that the Nullah floods a wide extent of ground after every heavy fall of rain and quickly subsiding causes malarious exhalations. Recommends that it be closed if it can be dispensed with, and if it cannot, recommends the estimates for sanction. | Progs. for the week ending 15th March 1851—<br>Nos. 26-7. |

States that no mention is made of treasuries for any of the districts, though they are more urgently required than Katcheries; that, though at Jhang and Gugera there is no doubt about the proper site for the buildings, it is not so at Multán owing to a doubt about the fort being retained for Military purposes and a difference of opinion between the Deputy Commissioner and himself regarding the most suitable site. Requests that the Civil Engineer be instructed to make arrangements to send the requisite quantity of timber by water down the Jhelum to Multán and the Chenab to Jhang and the Ravi to Gugera. Suggests that the doors for Gugera be made at Lahore, and that hinges be supplied for all the stations, as the workers in iron are exceedingly bad even at Multán. Notices that no mention is made of hinges or glass in the estimate, although mentioned in the specification and plan No. III, and begs that the Civil Engineer's opinion be obtained regarding the expense of lime at Multán, and that the extent of the pecuniary liabilities and responsibilities of the local officer for faults in executing the work may be distinctly defined. (O.) | Nos. 37-40. |
| | No. 422—322, dated 2nd April 1851 From—The Secretary to the Board of Administration, Punjab, To—The Secretary to the Government of India. | | In reply, the Secretary to the Board of Administration informs the Secretary to the Government of India that up to the present time there is no officer stationed at Lahore who has passed his examination in Punjabi, but that there are two missionaries, Messrs. Newton and Forman of the American Presbyterian Mission, well acquainted with the language, who are willing, in the absence of qualified officers, to take part in examinations twice a year. Suggests, therefore, that on days to be fixed by the Major-General Commanding the Division or by the Board in communication with the Examiner during the first weeks of January and July (commencing next January), a Committee, consisting of one of the missionaries referred to and two officers who have passed the Interpreters' examination and are known to have a good colloquial knowledge of Punjabi (as Captain Wakefield), may be assembled to examine in that language, and that if the Governor-General is satisfied with the report of Lieutenant Reid's proficiency in the language (forwarded with the Board's letter No. 310 of 31st ultimo), that officer might be one of the Committee. Proposes as a test that a page in the geographical description of the Punjab and another in the Janam Sakhi of Nanak be read and translated, then written out in English and re-translated into Punjabi, in the Gurmukhi character; that the parties examined should be required to read and translate three native letters written in a fair hand, to answar a dozen questions in grammar, and to talk before the examiners to a Sikh soldier and a Punjabi shopkeeper to the extent of 20 or 30 questions and answers. As regards the mode of examining in Sindi, encloses a memorandum by Lieutenant H. James, Deputy Commissioner, who passed in that language. (D.) | |

From—The Commissioner and Superintendent, Cis-Sutlej States, To—The Secretary to the Board of Administration, Punjab. | Adjustment of cost of supplies to the Field Force in 1848-49. | The Commissioner and Superintendent, Cis-Sutlej States, informs the Secretary to the Board of Administration that during the Punjab War of 1848-49 his predecessor, Lieutenant-Colonel Mackeson, C. B., issued instructions to the Chiefs and Jagirdars holding estates in the Cis-Sutlej States to send up supplies of carriage, stores, &c., to the army, which was done at the expense of the Chiefs, the Officer in charge of the Commissariat Department receiving the supplies and granting receipts under his own signature to the parties by whom they were delivered. Regrets that he is compelled to request the interference of superior authority for the purpose of obtaining for the individuals concerned reimbursement of the sums thus expended by them on behalf of Government. Encloses a copy of a letter from the Deputy Commissioner of Thánesar, who has already applied to the Commanding Officer at Ferozepore and to the authorities charged with the settlement of the Punjab Field Commissariat Accounts, but whose representations have been met with frivolous objections and payment of the sums demanded has been withheld. Requests that, with a view to prevent further delay, the Board will obtain the sanction of Government for the immediate disbursement of the sums noted in the accompanying statement, chargeable to the Commissariat Department, and that Department be advised accordingly. | 761 | No. 587, dated 25th February 1851...<br>From—The Secretary to the Government of India,<br>To—The Board of Administration for the affairs of the Punjab. | Qualifications of officers appointed to the Punjab. | In reply to letter No. 102, dated the 10th February 1851, the Secretary to the Government of India states that the Governor-General has no bias whatever in favour of Lieutenant Bristow, and, as a public principle, His Lordship is most desirous of supplying the Board with fully efficient agents for the conduct of the business with which they are charged, and for which they are responsible. Remarks that the Board do not specifically ask for Lieutenant Bristow's withdrawal, and that before forming a final conclusion on that head the Board are desired to consider where such a request will lead to. Enquires whether it is the intention of the Board to subject all the assistants to such a test as that to which Lieutenant Bristow has been subjected, and to retain no young officers unless they are of the "first rate or *very* efficient civil officers," and, if so, whether they have considered the practical difficulty of supplying so large a staff of such superior agents, or are prepared to suggest to His Lordship where he is to find them. States that His Lordship does not know how it is possible for him to take more pains than he has taken to find young officers likely to prove efficient civil officers after training and practice under seniors more experienced, and that these observations are not made in opposition to any wishes which the Board may entertain respecting Lieutenant Bristow, but in order to draw attention to difficulties which may possibly follow his removal; that, as the matter stands at present, the Governor-General conceives that if Lieutenant Bristow be removed, others must follow on the same ground, and that it is very questionable whether those who may be substituted will turn out to be a change for the better. Concludes by inviting the consideration of the Board to these points, and assures them of His Lordship's continued desire to afford them the best assistance and support in his power in this as in all other matters. They do not complain that they have some few officers serving under them whose capacity and acquirements do not come up to the highest standard of official qualification, for that all should reach that standard was not to be expected. Lieutenant Bristow's case was peculiar. He had never been appointed, and the Board regarded him as on probation. They do not say that he is altogether unqualified, or that there are not other assistants who would have failed as much as he did in the trial to which he was put, and regarding him as on probation they did not consider the result such as proved him to be any great acquisition to the service. The President and the Junior Members are of opinion that it would conduce to the efficiency of the Punjab service if all assistants (being military officers) were appointed on probation for the first year, to which Mr. Mansel is decidedly averse and records his opinion in a minute accompanying, the President observing that the theoretical objections of Mr. Mansel to a test apply equally to many important questions that come before the Board, especially such as affect the censure or praise of individuals, their promotion, &c.; that three persons cannot be expected always to agree, but that he (the President) has no wish to trouble Government with references on the demerits or deficiencies of any individual unless in cases where *at least* two members of the Board and a Commissioner are perfectly agreed. | 772 | No. 1203, dated 17th April 1851 ...<br>From—The Secretary to the Government of India,<br>To—The Secretary to the Board of Administration, Punjab, | Preservation of works of former dynasties in the Punjab. | The Secretary to the Government of India informs the Secretary to the Board of Administration that while at Lahore some months ago the Governor-General observed with much satisfaction the attention which was paid by Major G. H. Macgregor, with the sanction of the Board, to the preservation and partial restoration of the works of former dynasties. His Lordship remarks that it is obviously impossible for the Board or the Government to go to much expense on such works, but that a great deal may be done at small expense by a little care and interest, and all will tend to gratify the inhabitants of the Province over which British rule has been established. Points out that at Hassan Abdál there is a small quadrangle bearing the marks of having once been decorated with marble and carvings, with a square tomb in the centre, and a cypress tree at each corner, which require care. Remarks that the Governor-General found at Gujrát and Chilliánwála that a Fakir had at each place been put in charge of the spot in which the British who fell in those battles had been buried; that the Governor-General thinks the measure excellent, and hopes that the small allowances the Fakirs receive will be continued, and that some provision of the same kind may be made at Hassan Abdál, and that to the enclosure adjoining in which is a sacred tank, a barred gate should be put and entrusted to a Fakir, a small allowance accompanying the responsibility. Requests the Board to instruct the Commissioner of Jhelum accordingly. | Nos. 32-4. |

Enquires what mode of guardianship he would recommend and at what cost, and tells him that he should take immediate measures for preventing injury to the cypress trees. States that from the clear and explicit statements furnished by Major Goldney regarding the several claims there appears to be no doubt that the claimant has established his right to the grain, and therefore to the sums realised by its sale and now in deposit in the Ludhiána Treasury, and consequently requests the Board's sanction to the disbursement to Rai Kishen Chand of the sums in deposit amounting to Rs. 8,367-13-3 and the sanction of Government to the payment to him of Rs. 1,320-13-0 from the Treasury on account of the sale of his grain, the proceeds of which have been carried to the credit of Government. Explains that the amount for sale of the grain is still in deposit, but that the sum of Rs. 1,320-13-0 has been credited to Government under the head of "Profit and Loss," and that there seems to be no doubt of the validity of the claim. Recommends that sanction be given to the payment of Rs. 9,688-10-3 to Rai Kishen Chand. | |

| 777 | Nos. 534—441, dated 1st May 1851<br>From—The Secretary to the Board of Administration, Punjab,<br>To—The Secretary to the Government of India. | Officers for service in the Punjab. | The Secretary to the Board of Administration forwards to the Secretary to the Government of India the distribution list of officers serving under the Board, and mentions the necessity of again applying for additional officers for service in the Punjab. The Board observe that this necessity will have a periodical recurrence, and in like manner, as it is by law required that the Governor-General in Council shall annually transmit to the Court of Directors (the original source of supply) a prospective estimate of the number of persons who will be necessary to fill expected vacancies in the civil establishment of India, so it seems proper that the Board should transmit periodically to the Governor-General in Council a similar statement of the number required for these territories. The Board further observe that in the Punjab the full number of officers desirable for the maintenance of efficiency has not been appointed, and the applications for additional aid which the Board from time to time have felt it their duty to make have not been based upon prospective vacancies, but compelled by actual exigency. They have in previous letters given it as their opinion that for each district there should be a Deputy Commissioner and two Covenanted Assistants, exclusive of Settlement Officers and those employed on special duty. They have not pressed this opinion, and fearful of embarrasing the Government, at the present season, they hesitate to press it now; but having said that the full complement has not as yet been supplied to this Administration, it is right that they should explain what in their view constitutes that complement because then by glancing over the list it will be apparent how far the present establishment falls below the assumed standard of complete efficiency. The Board shew wherein the deficiencies lie, and recommend the appointment now, or as soon as may be practicable, of six Assistants for the Punjab, and of six others at the commencement of the next cold season. Observes, with reference to Lieutenant Dyas's objection to the low ground which is at a little distance all round Gurdáspur, that this is a feature common to all ridges, and that it is not the vicinity of low ground which is objectionable, but the fact of its being well drained or otherwise. States that the committee visited the site immediately after heavy rain, and as they observed on all sides a dry surface, in no part of which water remained stagnant, they concluded that the low land was well drained. Forwards copies of letters from Drs. Peskett and Dunlop on the same subject. Adds that the officers and men of the 13th Irregular Corps are encamped on the ridge at Gurdáspur, and, as they are provided with very inadequate cover, he would propose that the main body of the regiment return to their old cantonment at Mukerián. Peskett and Dunlop and of the Committee thereon. Expresses, however, His Lordship's doubt of the practicability of finding a sufficient number of officers for the service of the province if all are to be measured by the first class standard which has been applied to Lieutenant Bristow. Intimates that, though the whole body of officers in the Punjab were to be filled up by a nomination of members of the Civil Service in the same manner as in the Governments of Bengal and Agra, some of the nominees would necessarily be of a calibre inferior to the rest. | | No. 547—452, dated 3rd May 1851... From—The Secretary to the Board of Administration, Punjab, To—The Secretary to the Government of India. | | In reply, the Secretary to the Board of Administration states that the Board have given their attentive consideration to the remarks of the Most Noble the Governor-General upon the proposal to test the qualifications of officers for employment in the Punjab by requiring them to serve a term of probation, and upon the particular case of Lieutenant Bristow which has suggested the expediency of such a measure. They admit that it would be unreasonable to expect that all who are employed in civil office in the Punjab should reach the highest standard, and it did not appear to them to be necessary to the system of probation that the standard should be the highest, but that the measure of efficiency should be fixed at a point between perfect knowledge and absolute ignorance. With regard to the question asked whether the Board finally determine to recommend Lieutenant Bristow for removal, the reply is that they do not; that the qualifications of any officer must generally be a matter of opinion; that Lieutenant Bristow's are "not even secondary" the Board have never intended to imply; they think them secondary, and solicit that his appointment as an Assistant Commissioner (*cæteris paribus*) may appear in orders. The Board observe that those who are most welcome are those who have least to learn, and that he who is ignorant of the language has that to learn without which his experience and abilities cannot come into play. The Board do not ask for the flower of the service to be made over to the Punjab staff, but they believe that the wants of the Punjab will be taken into consideration in the estimate of the number of civil servants required for the Presidencies of India, and that students destined for the Punjab will shape their studies upon a consideration of what will be required from them there. Informs him that, in the face of reasons so strong as those adduced by the Committee, the Board are unable to make any recommendation to Government based upon his suggestion. The loss of revenue was an objection which did not occur to him. Points out that the object must be to keep the nullah constantly flowing, and so to control its course as to check encroachments in the direction of Anárkali. | 785 | No. 106, dated 16th April 1851 ... From—The Commissioner and Superintendent, Multán Division, To—The Secretary to the Board of Administration, Punjab. | Places of worship in Multán fort. | The Commissioner and Superintendent of the Multán Division solicits instructions regarding the conflicting claims of the Hindus and Mussalmans to build on a particular spot in the fort at Multán. States that in ancient times there is said to have been a very magnificent Hindu temple which was destroyed by the Arab invaders many centuries ago, and that the great shrine of Bahawal Haq was subsequently built, according to the Hindus, on or near the site; that the Hindus never had any place of worship in the fort from the Muhammadan conquest until Ranjit Singh took Multán; and that he allotted to the Hindus one corner of the enclosure of the Bahawal Haq shrine and a small mosque adjoining, called "the mosque of 16 pillars." The Commissioner does not think that the Hindus have any reasonable claim to re-build the old mosque, but believes that the Makhdum would not object to give up the mosque entirely were the corner of the enclosure made over to him and the entrance made direct and not through the precincts of the shrine. Reports that the Military authorities during his absence on circuit directed the Makhdum to suspend his repairs to the shrine. Annexes a copy of correspondence on the subject, and requests that definite orders may be obtained from Government, adding that it is of great importance that the work should be resumed at once so that the dome may be closed in before the rains. The Board are of opinion that so far as is compatible with the Military arrangements of the garrison both Mussalmans and Hindus should be allowed to restore their respective places of worship to the condition in which they were in Ranjit Singh's time. From—The Secretary to the Board of Administration, Punjab, To—The Deputy Assistant Adjutant-General, Cis-Jhelum Division. | | In reply, the Secretary to the Board of Administration states that he concurs with Brigadier Tennant as to the necessity of taking steps immediately for the improvement of the city ditch, which has become a pestilent nuisance; that the suggestion of forming a Committee to propose remedial measures and report is also acquiesced in by the Board, and they would name Major Macgregor and Lieutenants Hill and Fagan as members to be assoicated with any others (including one or two medical officers) whom the Major-General may think proper to appoint, the senior officer to be Presi- | |

| 788 | No. 186, dated 2nd May 1851 ... From—The Commissioner and Superintendent, Cis-Sutlej States, To—The Secretary to the Board of Administration, Punjab. | Re-arrangement of old records. | The Commissioner and Superintendent, Cis-Sutlej States, brings to the notice of the Secretary to the Board of Administration the disarranged state of the old records, both English and Persian, of his office, and submits an application for the entertainment of an establishment for 12 months for the English office, amounting to Rs. 280, and for the Persian office, amounting to Rs. 458, per mensem to set them right. (O.) | Nos. 18-19. |
| | No. 584-500, dated 14th May 1851 From—The Secretary to the Board of Administration, Punjab, To—The Secretary to the Government of India. | | The Secretary to the Board of Administration forwards a copy of the above to the Secretary to the Government of India. Remarks that there is no doubt that arrangement is very greatly needed, and states that the records most frequently consulted are those of the oldest date, for questions constantly arise the merits of which can only be determined by a careful review of the early proceedings of the British authority in the Protected States, and that the old records are therefore very important and valuable, and, in order that reference may be made to them and to the other records without perplexity, registers should be kept as is usual in all other offices. Points out that the case of the Cis-Sutlej office is peculiar, the disorder being the accumulated result of many years, during which there has been no regular system at any time; that the Persian Department of the office is even more chaotic, and nothing seems to be known of its contents more precise than that they are represented by 22,000 bundles, many of which, however, contain very important papers affecting the interests of the Cis-Sutlej Chiefs. Observes that the total establishment applied for will cost Rs. 738 per mensem which the Board regret the necessity for, but believing, as they do, that necessity to be real, they recommend that the sanction of the Most Noble the Governor-General be granted to incur this expense. Observes that it is a clear and interesting paper, but that fuller information is required (particularly as to the coal localities and the depth of the seams) before an opinion can be formed of the mineral capacities of the Punjab for practical purposes, and states that the Board have communicated to the Superintending Engineer and Civil Engineer of the Punjab that portion of the report which adverts to the sandstone, limestone and gypsum abounding at Pind Dádan Khan, and which Dr. Fleming thinks might be turned to valuable account in public works. States that he has seen the improvements, and that when on duty at Kasúr in June last he urged on Mr. Tytler the propriety of his sending in a bill on that account, and that Mr. Tytler held his office and lived in the tomb. Recommends that the sum proposed by the Deputy Commissioner be paid by Government to the estate. (D.) | Nos. 64-6. |

Observes that letters calling for information are sometimes replied to by English letters referring to enclosed correspondence (Robukari perhaps, or a bulky misl, or a bundle of English documents), out of which the Board have to gather the pith of the matter which the transmitting officer supposed to know the case might have expressed in two lines. Refers to the desire of the Governor-General that steam communication should be extended to the Upper Indus, Jhelum and Sutlej rivers, but points out that, as wood for fuel is said to be very scarce near the banks of the latter two streams and the supply for a continuance very doubtful, he is not prepared to run boats on these rivers until acquainted with the capabilities of the district bordering them. States that as regards the Upper Indus, the Commissioner and Superintendent of the Leiah Division has sent him every information by which he finds that abundance of fuel is procurable, sufficient to supply a monthly steamer as far up as Kálabágh. Shews what a boon it would be to the residents of Lahore, both European and Native, to have these works completed, and applies for sanction to the expenditure of Rs. 14,418-6-4 on that account. States that this sanction would have been applied for at an earlier period had not the Board deemed it right to institute an enquiry consequent on the suggestion of Colonel Napier to close the nullah altogether, and that the Committee appointed to consider and report upon this suggestion expressed an opinion unanimously against the project as one which the natives of every class would be extremely averse to, which would affect the revenue to a considerable extent, and the benefit of which, in point of salubrity, would be very questionable. Intimates that the consent of the Court of Directors will be immediately solicited by the Governor-General for the establishment of a station in Chamba, and conveys assent to the deputation of a medical officer to record the necessary observations on climate, &c. At this stage His Lordship thinks it right to say that, as at present informed, he cannot approve of the transfer of the whole of Pathánkot, Shahpur and the hill districts now under consideration to the district of Dínánagar, the internal organisation, &c., of the hill district appearing to him to differ very widely from a district in the plains. Gives it as his opinion that if Gurdáspur is formed into a Military station there is every reason for its being also the head-quarters of the Civil Departments, that it will be much more centrical than Batála, and the site will be found more healthy and that if materials are collected now, so that building may be begun at the close of the rainy season, he feels sure that the Katcheri and the greater portion of the jail can be finished by the hot season. States that Captain Hamilton, calculating a monthly supply of 4,800 maunds, thinks the immediate neighbourhood of the river would be exhausted in about 5 years, but that an inexhaustible supply can be derived from the "Bar." The Native Wood Agent, on the Chenab and Jhelum now employed by the Nawab's officers reports that he thinks there is about 8 years' supply below Multán. Suggests, therefore, that plantations of tamarisk and babul be formed on the waste land along the rivers at suitable places for the steamers, and proposes that the opinion of Dr. J. E. Shews that there is an immense tract of land in the Chaj Doab which is covered with wood suited for fuel. States that he is about to bring the subject of its preservation before the Board, and that if properly preserved the supply from it ought to be inexhaustible, and that the Jhelum District also possesses a good extent of brush-wood on the Salt Range and hills adjacent. Requests that Captain Ethersey will give timely notice so that fuel may be laid in in sufficient quantities, and adds that if this notice is given he is confident that the steamers may commence running in September 1851 without a likelihood of there being any lack of fuel. Sanctions the reduction of Rs. 22-11-1 per annum in the Jumma of Mauza Jumma Khalsa as remuneration to people for looking after the graves near that village, and adds that the Board understand by his letter that he has done all that the occasion requires, and that the limit of expenditure adopted by him has been fixed as sufficient to secure inviolate the ground which holds the remains of those who fell at Multán. Points to the advantage of securing the attendance of youths like these as calculated to excite an example in favour of learning amongst the mass of the people, and the advantage which accrues to the youths themselves by teaching them that superiority of position by birth and station does not imply superiority of intellectual and mental acquirements, and by engendering habits of consideration and respect for those whom previous training and habits led them to consider as an inferior and different race of beings from themselves. Shews the number of District Schools to be 13, the scholars borne on their books to be 237 and the average attendance 180. The appendix shews the localities of these schools, the date of their establishment, the number attending each, the course of study, and other circumstances respecting them. Explains the system pursued in the schools in order, that, if approved, the Board may introduce it into other schools under their control. Appends papers of lessons illustrative of the system. Observes that ever since the establishment of these schools by him in 1848, the want of suitable books in any language has been felt as a most serious impediment, to obviate which the preparation of a series of books in Hindi commencing with the alphabet, and proceeding gradually onwards, was undertaken by Babu Sheva Pershad, 8 numbers of which having been completed are forwarded as specimens. States that the Commissioner visited the Simla school on the day subsequent to that on which the public examination was held, and confirms the material facts related in Mr. Edwards' report, but adds that he has not had much experience in educational matters, nor given much attention to the subject, and therefore whatever opinion he may express must be received with this reservation. Remarks that, as far as he is able to judge, the Simla school is a most promising institution, and that the system of instruction is admirable, and is correctly and fairly described in Mr. Edwards' report, and observes that the same plan should, in his opinion, be followed in all Government schools; that he did not enquire particularly into the progress made by the several classes, but his object was to examine the method of instruction, and that he feels satisfied that none better suited to the wants and capacities of native children, better calculated to awaken attention, arouse emulation, impart habits of thought and reflection, and at the same time afford amusement could hardly be devised. Adds that it must remain for the Board to determine whether, with reference to the introduction of our police jurisdiction in the Lodhrán estate, and the payment by the Sirdars of commutation money since January 1847, as well as the misconduct of the Nábha State in the war of 1845-46, the claim of Nábha is to be rejected; or whether in virtue of the precedent in the case of Sonthee, and the orders of Government, dated 25th August 1838, and the terms of the agreement entered into by the Lodhrán Sikhs they are declared liable to render feudal service on occasions of births, deaths, marriages and war or ceremony, to Nábha, and presumes that if it is declared to be obligatory on them they must be absolved from allegiance to the British Government, or Nábha must be held entitled to receive the money which is realised in commutation of that service from the Sikhs of Lodhrán. | | 29th July 1851 ... From—The Secretary to the Board of Administration, Punjab, To—The Colonel Napier, Civil Engineer. | | The Secretary to the Board of Administration informs Colonel Napier, Civil Engineer, that the Board have received requisitions from the Commissioner of Scinde and the Bombay Government for supplies of timber from the hills of the Upper Sutlej and the Beas; that for some years past various communications on this subject have passed between the Government of Bombay and the authorities on the North-Western Frontier of India, but that no timber has been supplied since 1841, the time when Captain Ball, of the Indian Navy, was deputed by the Bombay Government to bring down the Sutlej a supply for the Bombay Dockyard, as an experiment. Informs him that the Board were addressed by the Commissioner of Scinde towards the close of 1849, that thereupon the Board wrote to the Commissioner, Trans-Sutlej States, and were informed in reply that logs of Keloo were not at that time procurable at Bhairowal or anywhere on the Beas. Requests him to forward to Sukkur a supply of different kinds of timber so that the Scinde Engineers may form an opinion as to the kind which suits their purposes best, both in regard to cost and quality, and that they may indent for that kind in future. Points out that it was for the wants of the Naval Department at Bombay that the Bombay Government first looked to a supply of timber from the Upper Sutlej, but their "Conservator of Forests" suggested to them that the timber which might not suit the Dockyard might still be very well adapted for building in Scinde. Quotes that part of the Conservator's letter regarding it, and adds that upon these grounds the Board commission the Civil Engineer to procure and send down by raft to the Executive Engineer at Sukkur 50 deodar timbers and 50 Chirs, of the finest class, 50 Dyar, and 50 chir timbers, and 50 fine timbers of each of the above three classes. States that the Board have now addressed the Civil Engineer of the Punjab giving him a commission to purchase and despatch to Sukkur a considerable supply of different kinds of fir, and that if the wood is approved of, they hope next year, and in subsequent years, to be able to send larger supplies. Begs that instructions may be given to the Executive Engineer at Sukkur to receive the timbers consigned to him, and suggests that a selection of the timber on the deodar raft should be sent on from Sukkur to the dockyard at Bombay for inspection and experiment in naval building purposes, for doubts have been expressed by Dr. Jameson, the Superintendent of the Botanical Gardens at Saharanpore, whether the spars sent to Bombay by Captain Ball in 1840 as deodars and pronounced unfit for ship-building were real deodar, or the inferior chir, and that gentleman considers the deodar to be the finest and most compact grained wood met with in the coniferous family in the Lower Himalaya. From—The Secretary to the Board of Administration, Punjab, To—The Commissioner and Superintendent of the Cis-Sutlej States. | | In reply, the Secretary to the Board of Administration states that the new rules are Nos. 6, 8 12, 13, and 14. Shews how the Board would read No 6 with regard to No. 8. The Board observe that it is in substance to the same effect as the notice which the Superintendent, Hill States, proposed to issue last year, and which was considered premature and was deferred until the new road from Simla to the plains had advanced. The Board are not satisfied that the rule could be enforced at present without serious inconvenience to the public, and for reasons given are opposed to that rule: they consider it will be sufficient at present to enforce payment of porters in advance. No. 12 the Board would omit, as unnecessary and likely to prove vexatious, as by rule 13 the plaintiff or his Mukhtar has to attend and depose in the language of the court; and to rule 14 should be added the words "under penalty of a fine." With respect to a new rule regarding wheeled carriages the Board agree in the Commissioner's remarks, but it happens (so they are given to understand) that there is but one | |

They think therefore that the proposed rule may be deferred for the present. | 845 | No. 304, dated 23rd July 1851 ...<br>From—The Commissioner and Superintendent of the Leiah Division,<br>To—The Secretary to the Board of Administration, Punjab. | Import of Russian chintzes, &c., by caravans in the Deraját. | The Commissioner and Superintendent of the Leiah Division acknowledges the receipt of the Board's letter No. 475, dated the 14th April 1851, regarding the import of Russian chintzes, &c., by the caravans in the Deraját, and states in reply that although silks and pashminas are imported to a considerable extent from the countries to the westward chintzes never find their way to the Cis-Indus districts of Leiah and Khángarh, and are, he believes, equally unknown at Multán and Baháwalpur, the chintzes and long cloth sold at these places being almost entirely of British manufacture. Doubts not, however, that a considerable quantity of chintzes is brought annually from the westward by the Powinda merchants who trade with Scinde and do not pass through the Deraját, but take the road to the westward of the Sulimani Range, and find their way to Shikárpore by the passes which open on Upper Scinde. Encloses a copy of a letter from the Deputy Commissioner of Dera Ismail Khan on the subject of these imports, from which it would appear that, although in no request Cis-Indus, Russian chintzes are held in some estimation in Bannu, our district immediately bordering on Kabul. States that he will request Major Taylor to ascertain the amount in demand there, as nearly as possible, and to forward samples of every kind sold in the Bannu markets, which shall be forwarded to the Board with any further information available on the subject. Thinks that a ditch and bank would answer the purpose of preventing desecration, and observes that it could be made and repaired by the prisoners. In reply to the enquiry whether there are any other buildings of interest besides the Hassan Abdál quadrangle, states that the only places of note of this description in his division are the tope at Mankiyála, the Forts of Rhotas and that of Attock, the last of which is being preserved for Military purposes, and the other two could not be restored at a moderate expense, and are likely to last many centuries without repairs. Saunders, Wedderburn and Inglis declare that there are no works of sufficiently traditionary interest to warrant their recommending a sum of money being expended in their repair; that Major Macgregor points out several mosques in the city of Lahore, more or less dilapidated, and other spots, such as Jahangir's tomb at Shahdara, and the Shalimar Garden, from which a large portion of the marble had been carried away to Amritsar, and that Major Lake at present asks only for the restoration of an old masonry tank near Batála | Nos. 50-55. |

Informs him that the Government of India are desirous of preserving the monuments of former dynasties in the Punjab and points to the tomb at Shahdara as worthy of preservation on every account. States that the Board wish him to estimate the extent of repairs necessary to preserve the present state of the building (not to restore it to its former perfection) and to devise a plan for preventing the encroachment of the river upon it, and to give his opinion on the proposal to make over to him the slabs of marble and stone now in the godowns of the Garrison Engineer. | | 31st July 1851 ... From—The Secretary to the Board of Administration, Punjab, To—The Secretary to the Government of India. | | The Secretary to the Board of Administration informs the Secretary to the Government of India that on receipt of Government letter No. 1203, dated the 17th April 1851, the Board addressed a circular to the Commissioners of divisions requiring them to report on any monument of former dynasties which it would be worth while to preserve or restore. Forwards reports on the subject from the Lahore Division. Concurs in the Commissioner's recommendation that Rs. 1,700 should be expended in the Dínánagar district for restoring an old masonry tank near Batála, and for converting the fort of Kalánaur into a serai. Sanction is also asked to the sum of Rs. 333-7-0 for repairing two ancient Imperial bridges and a Baoli. States that the Board agree with the Commissioner that Government money should not be expended upon the Muhammadan mosques in the city of Lahore, but that to preserve the tomb of Jahangir at Shahdara is an object well worth the expenditure of a moderate sum, and adds that Colonel Napier has been requested to estimate the extent to which repairs may be necessary, and to devise a plan for preventing the encroachment of the river. | 850—*contd.* | | Deficiency of timber for building purposes in the Punjab. | want of timber for building purposes in Lahore and the other stations in the Punjab, and that great interruptions to the public works in progress consequently arose; that in consequence of this he instituted enquiries as to how far it would be possible to supply from the district under his charge sufficient timber for the wants of the Punjab, and that he directed his attention to the Bashahr country in which are vast forests at no great distance from the Sutlej, but which have never yet been touched, in consequence of the supposed impossibility of floating the timbers, the river above Kotgarh being full of rocks and rapids. That as an experiment he lately despatched a party to fell fifty trees of every size in the forest of Songrah, between Trandah and the bridge of Wangtoo, and to float them down the river as far as possible, and that the whole of the timbers reached Kotgarh in safety, speedily and without difficulty. Observes that as below this point the Sutlej is comparatively open and free from rapids, no difficulty will arise in floating timbers thence to Ludhiana or Ferozepore, or to whatever point it may be deemed expedient to form a depôt, and that the success attending this undertaking has induced him to incur an expense of Rs. 1,000 on his own responsibility, in entertaining an establishment for felling and floating timber, for which sum he hopes to be able to float about 300 timbers as far as Rúpar. Explains that the necessity for trying the experiment when the river is in flood induced him to enter upon it without awaiting the previous sanction of the Board. Trusts that the measure will be approved of, and sanction given to the disbursement of the sum mentioned, and annexes a table shewing the rates at which trees of different sizes are procurable in Bashahr territory. States that the Board wish to be informed as to the quantity of wood which will probably be procurable; that they will be glad to receive a detail of the average cost of the timbers at Rúpar: that with every desire for economy they wish a fair price to be given to the Bashahr Raja for the produce of his country; and that they will be prepared to pass bills for such establishment as the Superintendent may consider necessary; and they beg him to take measures for having all the timber, that can be procured, sent down this season to Ferozepore. Regrets that Mr. Barnes had not seen the Committee's report before making his remarks on the authority of native information that the site selected by the Committee was deficient in a supply of water, as the number, elevation and discharges of springs are recorded, and recommends that Dr. Clemenger may be requested to examine the several springs reported on by the Committee. | 926 | No. 1626, dated 29th December 1851<br>From—The Secretary to the Board of Administration, Punjab,<br>To—Lieutenant-Colonel Napier, Civil Engineer. | Improvements to main room in the Board's office. | The Secretary to the Board of Administration informs Lieutenant-Colonel Napier, Civil Engineer, that the large room in the Board's office has been found intolerably hot during the past season, and that the office establishments suffered much in consequence. Enquires his opinion as to the most likely plan of reducing the temperature of the room. Suggests that a thatch over the roof would effect a considerable improvement, and that the verandah to the west be sheltered, and three or four large thermantidotes erected. Requests his immediate attention to the matter, as it may take a good deal of time and labour to render the room habitable by next hot season. | 927 | No. 1637, dated 30th December 1851<br>From—The Secretary to the Board of Administration, Punjab,<br>To—The Civil Engineer, Lahore. | Accommodation for treasury at Lahore. | The Secretary to the Board of Administration addresses the Civil Engineer, Lahore, and states that the Board consider it to be very necessary that an arrangement should be speedily made for placing the treasury without the city and having it adjoining the Deputy Commissioner's office in Anárkali, and that they deem it necessary that the Pension Paymaster's Office should be under the same roof as the treasury. Points out the inconvenience which at present is experienced by having the treasury in the city. Intimates that the Board have applied demi-officially to the Brigadier to know if any buildings in Anárkali are available, and that he holds out no hope of it for some time to come. Asks him for a plan and estimate of such an office as is wanted adjoining the Deputy Commissioner's office. Informs him that Mr. Montgomery called for Mr. Extra Assistant Penn's opinion as to what accommodation was wanted, and forwards copy of Mr. Penn's reply. Requests his early attention to the matter. From—The Civil Engineer of the Punjab, To—The Secretary to the Board of Administration, Punjab. | | In reply to the Board's letter No. 1601 of 23rd December 1851, relating to the road from Ráwalpindi to the hill station of Murree, the Civil Engineer of the Punjab states that he appointed the only available officer in his department, Lieutenant Hart, to the duty; and mentions what his instructions to that officer were and why he was obliged to employ Lieutenant Taylor to report on the road. Forwards a copy of a letter from Lieutenant Salkeld, and states that instructions have been given him to trace the road to Murree without loss of time. Requests that it may be explained to Government that every officer in his department has been fully occupied, and that to take Lieutenant Taylor away from his more important work will seriously interfere with the progress of the main road. | | No. 247—163, dated 17th February 1852. From—The Secretary to the Board of Administration, Punjab, To—The Secretary to the Government of India. | | The Secretary to the Board of Administration acknowleges receipt of despatch No. 3811 of 10th December 1851, from the Secretary to Government, forwarding a copy of a letter from the Adjutant-General and of its enclosures regarding the accommodation and roads at the Murree sanitarium, and especially regarding the road leading from the plains. States that the Board furnished copies of the above to the Civil Engineer and Commissioner of Jhelum, whose replies are enclosed. Points out that the explanation afforded is unsatisfactory, though the Board entirely support Colonel Napier's statement in regard to the full occupation of the officers of his department during the last year, and they agree with him that it would not have been advisable to withdraw Lieutenant Taylor from his work on the Peshâwar road, and they do not doubt that Lieutenant Salkeld will see the work accomplished on the Murree road without delay. | |

| 1084 | No. 1106, dated 10th July 1852 ... From—The Secretary to the Board of Administration, Punjab, To—Brigadier Sir J. Tennant, K.C.B. | Punjabi Examination. | The Secretary to the Board of Administration informs Brigadier Sir J. Tennant, K. C. B., that Lieutenant E. T. Smalley of the 51st Native Infantry has applied to the Board to appear before the Punjabi Examination Committee (agreeably to G. O., of 18th October 1851) for which purpose he has come to Lahore from Jullundur. Observes that in the suggestions the Board made that unless there were many candidates, the Committee might be put off to the cold season, they did not bear sufficiently in mind the terms of the G. O. in question which seems to leave no option as to there being two committees annually, and that it will be a hardship if officers (who like Lieutenant Smalley have come under authority of the General orders), have to return without an examination. The Board therefore request that Brigadier Tennant will appoint two officers as a committee who have already passed in Punjabi; and states they have on their part nominated Captain Wakefield, Cantonment Joint Magistrate. | 1147 | No. 3430, dated 24th September 1852. From—The Officiating Secretary to the Government of India, To—The Board of Administration for the affairs of the Punjab. | Management of Luddra Estate. | The Secretary to the Government of India forwards to the Secretary to the Board of Administration a copy of a petition from the Chief of Luddra or Luddra complaining that the Government police have been withdrawn from their estate, where they had been established since 1847, and the police of the Raja of Nábha has been located there, which measure has placed the Chiefs in feudal subjection to the Raja of Nábha. States that His Lordship in Council requests that the Board will carefully investigate the merits of the statements made by the petitioners. States that in His Lordship's opinion the Nábha Chief has not much claim, in a matter of this nature, to the favourable consideration of the Government, his conduct during and after the Sikh invasion not having been satisfactory; while, against the Luddra Sardars, there appears to have been no cause of complaint, and adds that His Lordship in Council desires that the Board will report, with as little delay as possible, upon the statement made by the petitioners both as regards political considerations and actual rights. Observes that since the Revd. Mr. Jay's removal in April last (no successor having been appointed), the want of a minister has been much felt: the occasional visits of the Mián Mír Chaplain are manifestly unequal for the requirements of a large community. Remarks that the residents subscribed a large sum of money, in addition to the grant of Rs. 1,000 which, at the recommendation of the Board, the Government granted for the purpose of adapting for public worship the building known as Anárkali's tomb which has been handsomely fitted up as a Church and used regularly for Divine worship. States that the same orders are applicable to every officer in charge of public works. Adds that Captain Browne should be cautioned to send none but very respectable Muhammadan agents to Muzaffarabad, and as regards his going there himself, the Board have already intimated that he should not do so, the neighbourhood being unsafe for Europeans. | 1215—*concld.* | No. 57—66, dated 13th January 1853.<br>From—The Secretary to the Board of Administration, Punjab,<br>To—The Officiating Secretary to the Government of India. | Accommodation for public offices at Kángra. | The Secretary to the Board of Administration forwards a copy of the above to the Secretary to the Government of India, for orders. Observes that, for the convenience and comfort of the people (provided there were no objections to it on other grounds), Kángra is doubtless the place where the Civil officers should reside; but, on the other hand, there can be no doubt that Kángra is not nearly so healthy a place as Dharmsála, and that the circumstance of the 2nd Sikh Local Infantry being located there, is an additional argument in its favour. On the whole, therefore, the Board are inclined to support Mr. McLeod's proposition that the headquarters of the district be transferred to Dharmsála, the Treasury being, however, retained at Kángra, where one Assistant Commissioner should invariably reside to look after it. States that the Board would retain the present Government Katchery at Kángra, and recommend that estimates for its repair be prepared; and in the event of the proposed arrangements being approved of, they request permission to call for estimates for a Katchery and Jail at Dharmsála. Adds with regard to the proposal for compensation to Nábha in lieu of all claims to service from the Lodhrán Sardars that His Lordship in Council cannot forego a part of what is justly due to Government on account of any claims which one dependency of the British Government may have against another, and that, therefore, the two annas in the rupee due to the British Government must be paid to it without deduction Expresses the opinion of His Lordship in Council, that, in the altered circumstances of the Protected Sikh States, all paramountcy of Nábha even in the four instances mentioned, ought properly to cease, but if there is anything to be paid by Lodhrán on account of such service it should be paid over and above the lawful dues of the State. | Nos. 6-7. |

Observes that they can, at this moment, obtain Rs. 15 per tola for Budkis, Rs. 14-8-0 for the highest standard of ingots and Rs. 13-4-0 for the remainder, and, with reference to the notorious depreciation in the value of gold, which will, in a short time, render the rates above quoted unobtainable, suggests to the Board the necessity of a speedy decision. Gibbon & Co. add that in the interim they are desirous of withdrawing their deposit of Rs. 15,000, and, when Government shall have authorized the sale of the gold at the market value, they will be prepared to undertake it, but they submit that, in the event of the sale being altogether withdrawn, they are entitled to indemnification for the serious loss sustained by that amount having been rendered unavailable for commercial purposes during the time it was in deposit. | 1238 | No. 42, dated 31st January 1853 ...<br>From—The Commissioner, Jhelum,<br>To—The Secretary to the Board of Administration, Punjab. | Application to build at Gora Galli. | The Commissioner, Jhelum, forwards to the Secretary to the Board of Administration an application made by Lieutenant-Colonel Cotton, Commanding His Majesty's 22nd, for permission to build a house for his family on a spot, named Gora Galli, about 8 miles from Murree, and forwards the private correspondence he has had with Colonel Cotton on the subject. Recommends that the proposition be rejected, as he does not see the necessity of any other sanitarium in addition to Murree, and that permission to one officer to locate himself at Gora Galli will produce some inconvenience as regards the provision of medical men, and the adjudication of disputes with the mountain labourers who will be required to build his house. Also that this one permission may lead to the existence of a second sanitarium, which will require its separate medical and judicial officers, its bazar and its police. (O.) | Nos. 12-13. |

Maltby addresses the Secretary to the Board of Administration, and furnishes in detail the information required by Government regarding a Church at Pesháwar. Encloses a plan with the architect's estimate in full detail. Also annexes an extract from the proceedings of a meeting of the local committee, who are of opinion that, on account of the great distance of the Artillery lines from the present Church, a Chapel of ease for the use of the Artillery is much needed. Adds that the amount of subscription collected for the church (Rs. 10,075-5-5) has been expended in raising the Church to its present height, and requests an early reply with regard to the probable amount the Government will be pleased to grant in aid of the work, which is now at a standstill for want of funds.
